

Tool 3 · Business Location Sustainability Checklist

Sustainable SME Toolkit · Nigeria

Where you choose to operate from is one of the few business decisions that is expensive to reverse. A site that looks cheap or If you are scoring a proposed site and have not yet signed a lease, treat any weight-3 item scoring 1 or 2 as a deal-breaker unless

#	Item	Wt	Rating (1-5)	Score
1	Average grid power availability is at least 8 hours per day	3		
2	You know the local DisCo feeder reliability (ask neighbours or check NERC reports)	2		
3	A three-phase connection is available if your equipment requires it	2		
4	Transformer is dedicated to the area or shared only with commercial users	2		
5	Reliable piped water is available, or a borehole is feasible on the plot	2		
6	Drainage around the site does not flood during typical rainy-season downpours	3		
7	Toilet and sanitation facilities meet minimum public-health standards	2		
8	Site is within 30 minutes of your top 3 customer segments or suppliers	2		
9	Public transport serves the area (staff and customers can reach you)	2		
10	Road access is paved and passable year-round (not just dry season)	2
