

Track 7 sustainability KPIs monthly. Fill in the actual value for each month; the form auto-calculates annual totals and shows a traffic-light compliance indicator (green = all 12 months tracked, yellow = partial, red = under-tracked).

Completion:

0%

(based on months filled across all KPIs)

TRACKING STATUS**Not started**

KPI	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Annual
Grid electricity (kWh) Monthly grid consumption in kilowatt-hours													0
Diesel / petrol (litres) Total generator fuel used													0
Solar generation (kWh) If you have a PV system; otherwise enter 0													0
Water consumed (m³) From meter or bill													0
Waste generated (kg) Total waste; track recycling % separately													0
Recycling rate (%) $\text{Recycled kg} \div \text{total waste kg} \times 100$													0
Female employees (count) Headcount at month-end													0

Enter your monthly value in each cell. Annual totals and completion status update automatically.

Status: red = under 40% of cells filled, amber = 40–79%, green = 80% or more.
