

● COHORT 01 · 2026 · NIGERIA

Master AI *Creatives* for Nigerian Organisations.

Real client briefs. Real portfolio. Real income.

Create the exact images, flyers, videos and social posts that brands, churches, fintechs and NGOs in Lagos, Abuja and across Nigeria pay for — no design degree needed. Real client-style briefs, step by step, until the work is in your portfolio.

[JOIN THE WAITLIST →](#)

BUILT FOR NYSC CORPS MEMBERS, FREELANCERS
AND YOUNG PROFESSIONALS

Why learn AI creatives in Nigeria?

Organisations across Nigeria need professional content every single week — but most cannot afford big agencies. One skilled AI creator can now deliver what used to take a whole design team, and the demand for that skill is growing fast across Lagos, Abuja and Port Harcourt.

01

Weekly content, agency budget

Brands, churches, fintechs and NGOs need professional images, flyers and posts every week — but a single agency retainer costs more than most can justify. AI creatives close that gap.

02

One creator = a whole design team

A single skilled AI creator can now produce brand images, flyers, content packs and short videos — work that used to need a photographer, designer, copywriter and editor combined.

03

Real demand in Lagos & Abuja

There is genuine hiring appetite for freelance, remote and in-house AI creatives — especially in Lagos and Abuja, where fintechs, churches and NGOs are actively recruiting.

04

A skill that earns, not just a cert

Perfect for corps members and young people who want a skill that pays — one that builds a real portfolio clients and employers can actually see, not just another certificate.

MODULES

5

REAL CLIENT BRIEFS

1

PORTFOLIO KIT

How the training works

We teach **workflows, not buttons**. Every module starts with a short lesson and tool walkthrough, then hands you a real-style client brief. You deliver the actual work, step by step, until it is portfolio-ready. By the capstone you ship a full multi-platform campaign.

01

Short lessons & tool walkthroughs

Learn the workflow first — how a brief becomes a finished deliverable. Tool walkthroughs cover Groq, Gemini, GPT Image 2, Google Flow, CapCut and Canva AI in the order you actually use them.

02

Real-style client brief (job simulation)

Then a realistic brief from a real Nigerian organisation — a Lagos fintech, a Port Harcourt church, an Abuja NGO. You read the brief, plan the work, and deliver exactly what the client asked for.

03

Deliverables become portfolio pieces

Every artefact you complete in the simulations goes into a personal portfolio you can show employers, clients and your NYSC PPA. By the end you have five real client-grade pieces.

04

Capstone — a full multi-platform campaign

Finish with a complete campaign pack for a Nigerian NGO: main flyer, social posts, WhatsApp Status designs, short video and a posting schedule. The kind of work a real client actually buys.

Cohort size is capped — so every learner gets real feedback on every brief. Applications are reviewed in the order they arrive. Reserving your place takes one minute — no payment details needed at this stage.

01

MODULE 01

AI Image Generation for Organisations

Brands need local, high-quality images that look **Nigerian and professional** for Instagram, websites and adverts. Stock photos look foreign; photoshoots cost hundreds of thousands of naira. AI image generation closes that gap.

WHAT YOU WILL CREATE

Lifestyle product shots, event images and brand visuals that feel warm, local and premium — sized for Instagram, websites and adverts.

THE WORKFLOW

- 01 Read the client brief carefully
- 02 Write a clear AI prompt — Nigerian context, lighting, style
- 03 Generate images with GPT Image 2 and Gemini
- 04 Select and improve the best ones
- 05 Resize for Instagram and website

JOB SIMULATION · REAL CLIENT BRIEF

FreshMart Nigeria

Lagos-based supermarket chain · Ikeja, Lekki & Abuja

"We are launching a new 'Farm Fresh Sundays' campaign. Create 8 lifestyle images showing young Nigerian families shopping and cooking with our fresh vegetables and fruits. Images must feel warm, local and premium. Deliver in Instagram square size and website banner size."

8 lifestyle images

IG square 1:1

Website banner

PORTFOLIO DELIVERABLE

A set of 8 branded campaign images, delivered in Instagram and website sizes — ready to drop straight into a portfolio.

02

MODULE 02

Flyer & Poster Design with AI

Events, promotions and church programmes still depend heavily on well-designed flyers shared on WhatsApp and Instagram. **Someone has to design them — and that someone gets paid.**

WHAT YOU WILL CREATE

Event flyers, promotional posters and multi-size versions — sized correctly for Instagram, WhatsApp Status and print.

THE WORKFLOW

- 01** Understand the key information — date, venue, offer, colours
- 02** Generate the main visual with AI
- 03** Arrange text clearly — headline, details, call to action
- 04** Add logo and contact details
- 05** Create versions for Instagram, WhatsApp Status and print

JOB SIMULATION · REAL CLIENT BRIEF

Dominion City Church, Port Harcourt

Church youth ministry · annual career summit

*"Design a professional flyer for our 'Youth Career & Entrepreneurship Summit 2026'.
Date: 15th November. Venue: Hotel Presidential. Speakers include two well-known Nigerian entrepreneurs. Free registration.
Colours: navy blue and gold. We need Instagram post size, WhatsApp Status size, and a printable A5 version."*

Instagram post

WhatsApp Status

A5 print

PORTFOLIO DELIVERABLE

A 3-version flyer pack — Dominion City summit flyer sized for Instagram, WhatsApp Status and A5 print.

03

MODULE 03

Social Media Content Packs & Scheduling

Businesses need consistent daily or weekly posts. **One good content pack can cover a full week** — which is exactly why clients buy them on retainer. You will learn to ship a full 7-day pack, captions and schedule included.

WHAT YOU WILL CREATE

Carousels, single posts, story sets — plus a simple posting schedule that a client can hand straight to a social media manager.

THE WORKFLOW

- 01 Understand the campaign goal
- 02 Plan 5–7 pieces of content
- 03 Create the visuals with AI
- 04 Write short, Nigerian-friendly captions
- 05 Organise everything into a simple weekly schedule

JOB SIMULATION · REAL CLIENT BRIEF

PayLater NG

Lagos fintech · buy-now-pay-later for market women

"Create a 7-day Instagram content pack to promote our new 'Market Queen' loan offer for women traders. Tone should be empowering, simple and trustworthy. Include 3 carousels, 2 single image posts and 2 story sets. Also give us a simple posting schedule for the week."

3 carousels

2 single posts

2 story sets

7-day schedule

PORTFOLIO DELIVERABLE

A 7-day content pack — PayLater NG carousels, single posts, story sets and a posting schedule ready for the client.

04

MODULE 04

Short AI Videos & Reels

Short video gets the highest engagement on Instagram, TikTok and WhatsApp Status. Most organisations struggle to produce it regularly — so **the person who can is genuinely valuable**.

WHAT YOU WILL CREATE

15–45 second promotional Reels and simple product or event videos — scripted, generated and edited by you, exported in vertical 9:16 format.

THE WORKFLOW

- 01 Write a short script
- 02 Generate AI video clips or images — Google Flow, GPT Image 2
- 03 Add voice-over or on-screen text
- 04 Edit with music and transitions in CapCut
- 05 Export in vertical 9:16 format

JOB SIMULATION · REAL CLIENT BRIEF

MamaPut Express

Fast-casual Nigerian food chain · Abuja & Lagos

"Create a 30-second Reel promoting our new Weekend Family Combo! Show happy Nigerian families enjoying jollof, chicken and drinks in our restaurant. Make it colourful, appetising and local. Add upbeat Afrobeats-style music and clear text showing the price."

On-screen pricing

PORTFOLIO DELIVERABLE

A 30-second promotional Reel — MamaPut Express food promo, scripted, generated and edited by you, ready to publish.

05

MODULE 05 · CAPSTONE

Full Campaign Pack

Real clients rarely ask for one design. They ask for a **complete set across platforms**. Delivering that set, neatly packaged, is what separates a hobbyist from a hire.

WHAT YOU WILL CREATE

Main flyer + social posts + WhatsApp Status designs + short video + content schedule — packaged neatly for a client to use across every platform they run.

THE WORKFLOW

- 01 Study the full brief
- 02 Create the main visual assets
- 03 Adapt them for every platform
- 04 Write captions
- 05 Package everything neatly for the client

CAPSTONE · REAL CLIENT BRIEF

EduBridge Foundation

Abuja NGO · secondary school scholarships for girls in Northern Nigeria

"We are launching our 2026 Girls Scholarship Programme. Please deliver: 1 main campaign flyer, 5 Instagram posts (a mix of single images and carousels), 3 WhatsApp Status designs, 1 short 25-second promotional video, and a simple 10-day posting schedule. Tone: hopeful, dignified and professional. Colours: deep green and white."

1 main flyer

5 Instagram posts

3 WhatsApp Status

25-sec video

10-day schedule

PORTFOLIO DELIVERABLE

A full NGO campaign kit — EduBridge 2026 launch: flyer, posts, status set, video and 10-day schedule. The strongest piece in your portfolio.

A portfolio — not just a certificate.

Every deliverable you complete in the simulations goes into a personal portfolio you can show employers, clients and your NYSC PPA. By the end of the cohort you will have produced five real, client-grade pieces — and the exact AI workflow that produced them.

01

8 branded campaign images

The FreshMart lifestyle set — warm, local and premium, delivered in Instagram and website sizes.

MODULE 01 · IMAGE GENERATION

02

3-version flyer pack

Dominion City summit flyer for Instagram, WhatsApp Status and A5 print — navy and gold.

MODULE 02 · FLYER DESIGN

03

7-day content pack

PayLater NG carousels, single posts, story sets and a posting schedule ready for the client.

MODULE 03 · CONTENT PACKS

04

30-second promotional Reel

MamaPut Express food promo — scripted, generated and edited by you, exported vertical 9:16.

MODULE 04 · SHORT VIDEO

05

A full NGO campaign kit

EduBridge 2026 launch: flyer, posts, status set, short video and 10-day schedule — your strongest portfolio piece.

MODULE 05 · CAPSTONE

And you leave with a **repeatable AI workflow** — the exact Groq, Gemini and GPT Image 2 process you can rerun for any client, in any sector, anywhere in Nigeria.

For currently serving NYSC members
---	---	---

WHAT IS INCLUDED — EVERY TIER

✦ All 5 modules & 5 real client briefs	✦ Personal feedback on every brief
✦ Full portfolio kit (5 deliverables)	✦ Tool walkthroughs: Groq, Gemini, GPT Image 2
✦ Capstone campaign pack	✦ Completion certificate

₦ To reserve a place — reach out via WhatsApp or email and we reply within 24 hours. No payment details needed at the application stage.

Everything people ask before they apply.

Six of the questions we hear most often. If yours is not here, reach out on WhatsApp — we are happy to talk it through.

Can complete beginners learn AI creatives?

Yes. We assume no design background. Every module starts with the workflow, then a guided walkthrough, then a real brief — you learn by doing, not by listening to theory.

Do I need a powerful laptop?

No. A modest laptop and a standard Nigerian data plan are enough. The AI tools run in the cloud — Groq, Gemini and GPT Image 2 are browser-based. CapCut has a free version that runs on entry-level machines.

Is this useful for NYSC corps members?

Very. The portfolio strengthens your PPA, the workflow is something you can deliver for organisations around your PPA, and the skill is one you take with you after service — into freelance, remote or in-house roles.

What kind of organisations need this in Nigeria?

Brands, churches, fintechs, NGOs, supermarkets, restaurants, schools — across Lagos, Abuja and Port Harcourt. The module briefs reflect the actual sectors that hire AI creatives here.

What will I walk away with?

A real portfolio of five client-grade deliverables, a repeatable AI workflow you can rerun for any client, and a completion certificate. The portfolio is the main asset — that is what employers and clients actually look at.

Which AI tools will I use?

Groq for fast text and idea generation, Gemini for multimodal planning, GPT Image 2 for visuals, Google Flow for video, CapCut for editing and Canva AI for layout and resizing. We teach the workflow, not the buttons.

READY TO START?

Reserve your place — *first cohort is capped.*

Cohort places are limited so every learner gets real feedback on their work. Reach out today — it takes one minute, costs nothing to apply at this stage, and we reply on WhatsApp.
